1. AIMS OF THE CALL FOR PROVIDERS

The objective of this Invitation is to identify and select organisations across Europe willing to join the **SKIFT Project Registry of providers for the social economy**, facilitating the connection between capacity building providers and social economy enterprises (SEs).

The Registry will serve as a list of providers and will be used by the applicants participating in the project SKI.F.T. SKILLS FOR TRANSITION to identify and purchase capacity building services via the **Call for financial support** awarded to them in phase 2 of the project. The financial support will be provided to the applicant only, who will be responsible for administering the grant, including contracting the providers and settling the payment.

A single provider can participate in more than one application presented by the SEEs in the CALL FOR SOCIAL ECONOMY ENTERPRISES TO RECEIVE FINANCIAL SUPPORT.

Benefits for organisations who will be included in the Registry:

- increase revenue from services provided;
- networking and collaboration opportunities;
- connect with the EU SEs value chain.
- learn how to cooperate with SEs and other stakeholders via an open innovation, project- based approach.

The Registry will be published on the project webpages.
